

Building Families One Story at a Time

Celebrate with us our 1 year Anniversary!

From all of us at Legacy we want to thank you for helping make it possible.

Facts about Legacy Adoptions & Surrogacy

Within one year of our doors open we have accomplished so much.....

Legacy has had 3 completed adoptions with one more expected in July.

Legacy believes in giving back to the community. Legacy adopted a two mile stretch of 1709 in Keller, Texas.

Legacy utilized the Loving and Caring curriculum to help the birth mom make a fact based decision on her child's future.

Legacy is growing and with your continued help and support we will be able to keep on building bridges between a birth family with an unintended pregnancy and an adoring adoptive family.

Did You Know

According to the U.S. Department of State; Texas is number 2 of the top 5 adopting states. In 2011, the total number of adoptions in Texas was 570; 324 being females and 246 being male.

Myth: Only rich people can afford to adopt.

Truth: While you can expect certain costs associated with adoptions, we work to keep these numbers as reasonable as possible. As well, we offer adoptive parents a detailed estimate of costs upfront so that you can plan accordingly.

Myth: Closed adoptions are the best option.

Fact: In the past, many domestic adoptions were closed and adopted children often had no idea about their family origin. Now, the process has changed. We promote open and semi-open adoption, which allows for some contact and exchange of information to help build a legacy for each adopted child.

Our Vision

Legacy Adoptions and Surrogacy commits to create loving, traditional families, treating each person with compassion, professionalism and respect. As a faith-based agency, we believe that each family is designed by God.

“If 1 family in every 3 churches in the US adopted a child, we would adopt every child in need of a family in the US”; according to adoptionsjourney.org

Meet Our Newest Addition

Candyce Woods received a Bachelors of Arts, majoring in Psychology & Sociology from Southeastern Oklahoma State University in 2010 and her Master's of Science in Social Work from University of Texas at Arlington in May. Candyce enjoys reading, and walking her dogs. She is a newlywed with no children of her own, although has the hopes of starting a family one day.
